ERP software

Since 1986, **Microtech** became one of the Leading ERP Software Providers in **Egypt & the Middle East** by delivering products and support services that help managing various business processes for customers throughout the region.

Microtech was the chief software company in the **Middle East** to be accredited by ISO 9001/TickIT certification in 1997 and CMMI Level 3 in 2006. Microtech was always a leader in providing new solutions utilizing newest technologies.

Microtech customer base of **over 3500 customers** in **17 countries** was no accident.

Its software solutions are integrated, intuitive, easily manageable, and cost effective. Its business applications boast impressive scalability and reliability. The latest Microtech ERP solutions cover marketing, sales, supply chain, manufacturing, customer service, accounting, merchandising, retail, and human resources.

Microtech Customer Base Of Over 3500 Customers In 17 Countries

Microtech
Daylight
Cloud

Microtech Daylight Cloud

Microtech Daylight Cloud Series are both highly functional, customizable, and very user friendly. Benefits are minimal implementation time, as well as minimal running costs.

Microtech Daylight Cloud Series, is the web based ERP solution offered in two flavors, either as a service (SaaS) or through on premise hosting and perpetual user licensing. It offers you a first-time À-La-Carte feature store enabling you to purchase or rent only what you need, when you need it. This solution, with such unique capabilities not only saves you money, but also allows you to customize the software for your different business units.

Microtech was keen on ensuring you data's privacy and availability through implementing the highest security standards. Mobile specific functional applications are also available to empower your business, satisfy your customers, automate your processes, and enhance your competitiveness.

Microtech Daylight Cloud Series are both highly functional, customizable, and very user friendly. Benefits are minimal implementation time, as well as minimal running costs.

Microtech Daylight Cloud offers three feature bouquets, designed as a starting platform for different requirements:

Al-Motammem
Mini

Al-Motammem Mini is made for small business operators.
